**Subject:** RE: Winter Home VI Testing

Let's discuss this during our call next Tuesday. Obviously, there are still home to sample. Normally, in NY, we would wait till later in the season to get the worst case - cold weather, heating system running constantly and the house sealed up - in February or early March. Not sure how that plays out in Franklin, Indiana.

**Subject:** Winter Home VI Testing

Hi Joe,  
Can you please let me know when Amphenol plans to re-sample homes for VI this winter?  
Thanks.  
Carolyn
